Redeeming Deli Dollars

1. When you're ready to place your order, proceed to checkout.
2. On the payment options, you'll have the option of applying Deli Dollars toward your order.
3. The Deli Dollar points (and equivalent dollar value) will auto-populate:
 - a. If the balance due is **LESS** than the amount of Deli Dollars available, it will auto-populate to the amount needed to cover the whole order.

You can apply Deli Dollars (Cash Value: \$11.40) of your 470 available Deli Dollars towards this order.

- b. If the balance due is **MORE** than the amount of Deli Dollars on their account, it will auto-populate all Deli Dollars available.
4. The amount of Deli Dollars can be changed by either entering the number in the entry field or by using the up/down arrows that will display when you hover over the entry field.
5. Once the desired amount of Deli Dollars is entered, select the **“Apply”** button to deduct the amount from the order.
6. After they have been successfully applied, the Deli Dollars quantity will be grayed out and the **“Apply”** button will change to **“Remove.”**
7. If the amount being redeemed does not cover the full total of the order, you will receive a message stating the balance due.
8. The Deli Dollar redemption amount will display as **“Discount”** on the Order Summary page.
9. If during checkout, after already applying Deli Dollars, the order is edited (e.g. more items added or removed), the Deli Dollars previously applied will be automatically removed and a message will appear. You will need to reapply Deli Dollars if you still wish to redeem them on the order.
